

THE INTERVIEW

By Katie Goodling

As seen on KTRock.info

How long has the band been together?

JB, Mike and John met in middle school and Josh is Mike's older brother so .. we've been together about 12 years and playing out together constantly for about 5 years straight

How has the band evolved from the beginning?

Like I said in the above and we grew up basically learning our instruments together, though we all have different tastes in music.

What genre (if any) does the band fall into?

I would say alternative rock as a general category.

What are the goals of the band?

We are seeking a record label right now, and some kind of representation though we are keeping our options open. The goal is to make enough money to survive playing music.

Have you released any albums?

We have one EP called opposites attack. It's six songs and they all sound kind of different because we took a long time writing them, but we have some newer stuff now and our writing process is speeding up.

Favorite show ever played?

Hmmm... I don't know there's a lot we liked .. Jimmie's chicken Shack I guess but there are many others where we had great times.

Favorite venues?

We like Daddy Mcfatty's in Norry because it's near home and we know everybody. We like Harry's in Bloomsburg because we all went to school there and the crowds always great. We also like the Croc Rock though we just recently played there.

Have you opened for any national acts?

Yeah, Jimmie's Chicken Shack, Funny Money (formerly KIX), and The Badlees

Any embarrassing moments on stage?

Josh once had quite a few Yuengling Lagers and went to grab a dude's hand to do a 'chest bump' and fell off the stage into the guy! He then gave the guy his guitar to play horribly through one of our songs! Ever since then he has a two lager limit!

Anything you would like to say to your fans?

Thank you for all the support!!!! This is a tough area to do original music, but we are trying! and we're getting a great response so far.
